When you click on a specific task, you'll see different options to indicate the current status of the requested document. Please confirm the status and update it as it changes. For example, you may confirm that you've uploaded your secondary school certificate but not the transcripts, if you need more time to obtain them. Once the transcripts are uploaded, you can update the status of the task. Make sure you have actually uploaded the document before selecting a status that confirms it.

Once you've uploaded all the available documents and completed all sections, make sure to submit your application. Saving the draft is NOT the same as clicking on the submit button. We will only receive your application after it has been submitted. If you need to make any changes—upload additional documents or update information—you can easily do so by clicking on 'Edit application.' Once you're done, make sure to submit your application again, if required.
